RETRACTABLE STOCKPILE DUST RING

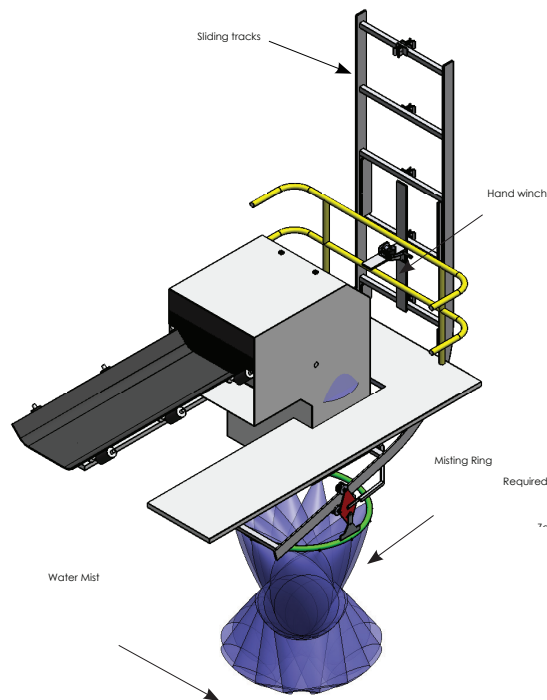

WWW.DUST.I-CAT.CO.ZA | 086 112 4228

INTRODUCING THE RETRACTABLE STOCKPILE DUST RING FOR EFFECTIVE STOCKPILE DUST SUPPRESSION WITH EASY INSTALLATION AND EASY MAINTENANCE

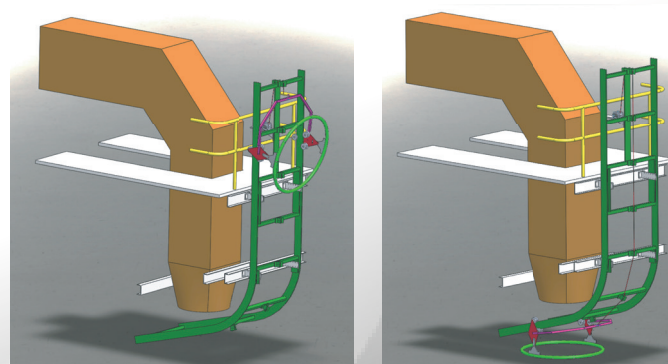

Introduced to address dust issues at conveyor discharge points, the **R-SDR** system creates a virtual curtain around material flow for effective particle containment. Engineered to industrial standards and specifications and longevity, the **R-SDR** surrounds the discharge flow on all sides, providing simple, focused dust management solution.

Variable configuration allows nozzles to be added, removed or replaced with different sizes to suit specific applications.

ADVANTAGES:

- Simple, focused dust control
- Continuous duty on radial stacker
- Customizable nozzle options with Variable Particle Sizing (VPS) Technology
- An intrinsically safe, mounted option
- Fully retractable and serviceable configuration for ease of access, installation and nozzle maintenance
- Low water usage
- PLC controlled
